AMERILUBE DESCALER

AMERILUBE DESCALER is a super premium safe efficient water soluble scale solvent. It is effective even under the most severe conditions.

AMERILUBE DESCALER will dissolve approximately 2 lb's of lime and water scale per gallon. It is considered non-toxic, non-corrosive, and non-flammable when used as directed.

AMERILUBE DESCALER will not erode, pit, or oxidize metals, however, it is not recommended for use on aluminum, zinc, and any alloy of magnesium. It has also been accepted for use as an acid cleaner by the U.S.D.A., and has been assayed using the D.O.T. skin corrosion rabbit test as "non-corrosive" to intact skin of the rabbit.

- Excellent Lime and Grease Removal
- Accepted by the U.S.D.A. and D.O.T.
- Good Dispersant Properties
- Dissolves 2 lb's of Lime and Scale / Gallon
- Non-Toxic / Non-Corrosive When Used As Directed
- Excellent Miscibility in Water

Typical Properties

Property	DESCALER
Specific Gravity	1.0561
pH	<1.0
Freeze Point	1 °F
Boiling Point	214 °F
Flash Point	NONE
Temperature of Reaction	NEGLIGIBLE
Temperature Range	+40 °F to +180 °F
Optimum Temperature	80 °F
Gas Evolved During Use	CO ₂
