AMERILUBE RING OIL

AMERILUBE RING OILS are specially formulated from special semi synthetic base stocks to provide NON-Toxic / NON-Hazardous, stain free lubrication of textile mill guide rings. AMERILUBE RING OILS provide for excellent lubrication qualities and is formulated with special non staining cleaning agents to prevent deposits from forming on mill guide rings.

- Outstanding Oxidation Stability
 - Very High Viscosity Index
 - High Flash & Auto-Ignition Points
 - Very Low Volatility
 - Extremely High Film Strength
 - Excellent Coolant Properties
- Energy Savings
 - Deposit Control and Cleaning
 - Reduced Maintenance Costs
 - Non-Staining
 - Excellent Materials Compatibility
 - Reduced Lubricant Consumption

Typical Performance Data

Lubricant Designation	Typical Result									
Grade	22	32	46	54	68	75	86	99	110	160
Viscosity cSt °C	100	160	210	250	318	346	401	478	503	751
Pour Point °F (D97)	15	15	15	15	15	15	15	15	15	15
Flash Point °F (D92)	350	390	415	420	430	435	450	478	475	475
Neutralization Number	<.01	<.01	<.01	<.01	<.01	<.01	<.01	<.01	<.01	<.01
Saponification Number	<.01	<.01	<.01	<.01	<.01	<.01	<.01	<.01	<.01	<.01
Wax Content	.01	.01	.01	.01	.01	.01	.01	.01	.01	.01
Ash Content	<.02	<.02	<.02	<.02	<.02	<.02	<.02	<.02	<.02	<.02
